Grange Park Primary School

Monday 9 November 2026

Dear Parents

Year 6 Science Workshop

Year 6 has planned an exciting workshop 'Circulation and Heart Dissection ' as part of our science biology topic last term. Circulation and Heart Dissection is a carefully supervised and truly inspiring workshop. It really brings anatomy to life, and provides a unique learning experience for children.

In this circulation and heart dissection workshop we will investigate -

- The function of the heart and how to keep it healthy
- Circulation of blood through the heart and lungs
- The anatomy of the heart and the roles of the different parts
- How to dissect a lambs heart safely and identify the main structures
- Diseases of the heart and how surgeons can repair defects such as holes in the heart.

This workshop is run in a very clinical manner. It shows respect for cultural sensitivities. It is, of course, fully risk assessed.

All classes will be taking part in the workshop on Thursday 10 December 2026. The cost of this workshop is **£6.50** which will cover the visiting scientist and all the materials that the children will be using in the workshop.

Please log onto Arbor>Trips>Y6 Science workshop to make the payment by Friday 27 November 2026.

Children will need to bring their reading books and Chromebooks to school as usual.

Kind Regards

Year 6 Team
