Dear Parent

We have received an update from the Director of Public Health at Enfield Council regarding an ongoing outbreak of meningitis in Kent. While a case has been identified in London, the local health authority has stated it does not currently appear to be connected to the Kent outbreak.

As a precautionary measure, we have been asked to share the attached information to ensure our school community is well-informed about the symptoms of meningococcal disease (meningitis and septicaemia).

Please take a moment to review the [symptoms asset](#) provided by the UKHSA and Meningitis Now for more detailed guidance.

Kind regards

Tijen Hassan
Headteacher
