 Numbers up to 100.

Culture

The weather in Spain

Spain is a sunny country with around 3,000 hours of sunshine per year. Temperatures are mild but even so there are differences between the seasons and the different areas of the country. Spring and Autumn have the most pleasant temperatures and allow you to enjoy the outdoors almost all day. The maximum temperatures are reached during the months of July and August when it is hot and dry throughout the country. The minimum temperatures usually occur in the months of January and February, which coincide with the rainiest months, mainly in the north of Spain.
