Culture

Daylight saving time. How is it different from London to Spain?
If you live in the United Kingdom and want to call a friend in Spain, try calling them between 6am and 10pm your time. This will be between 7am - 11pm their time, since Spain is 1 hour ahead of the United Kingdom. Also winter time makes the days shorter than in Spain, but then in summer the days are longer, having in summer only about 6 hours at night, since it is dawn at 4am in the morning!
