

Dear Parents,

Year 3 Science workshop (Skeletons)

Year 3 has planned an exciting workshop called 'Skeletons' as part of this next term's wider science topic.

The purpose of the workshop is to explore many aspects of the human skeletal system, including why animals and humans have skeletons and muscles. Children will also learn that animals including humans need the right type and amount of nutrition and how they get nutrition.

All classes will be taking part in the workshop on Friday 9th January 2026. The cost of this workshop is £6 which will cover the visiting scientist and all the materials that the children will be using in the workshop.

Payments should be paid via Arbor > Trips > Year 3 Skeletons workshop by **Thursday 8th January 2026**.

Children will need to bring their reading books and Chromebooks to school as usual.

Kind Regards

Year 3 Team
